

# Assignments

If a teacher has set you an assignment in Schoolwise it will appear on your landing page:

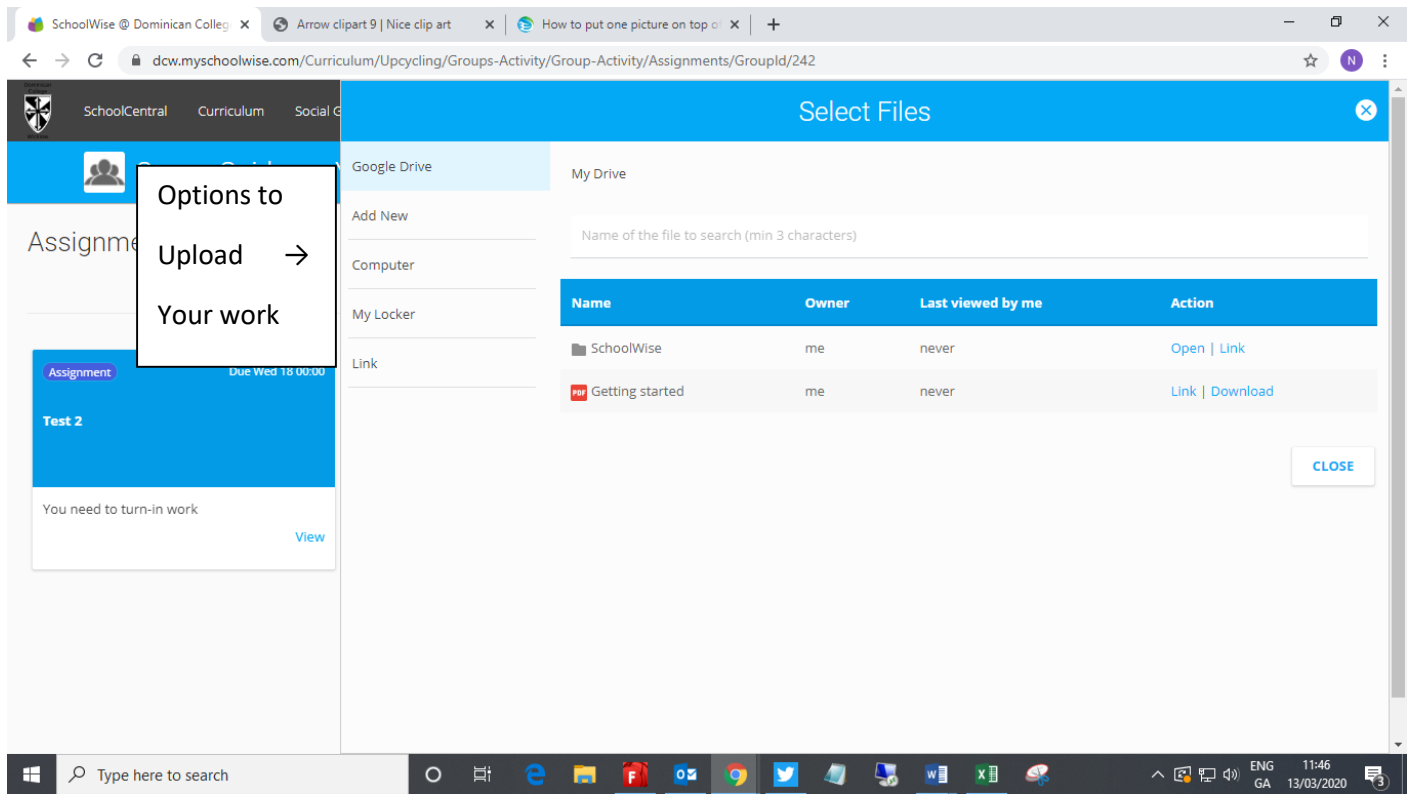

Once you go into the set assignment you can see the work that has been set by the teacher. There may also be handouts, images or other attachments that the teacher has given you. There may be instructions, and a deadline for completion of the work. There is also an opportunity for you to attach your work for the teacher to correct.

There are a number of ways for you to send your work to your teacher. The most common being taking a picture. You can do this through a number of options that come up when you click on “Attach My Work”.

You can upload a file or picture on your device by going in to ‘Computer’ and finding the correct file.

Alternatively, you can save a file to Google Drive and upload it from there.

## **Important**

When you are ‘turning in’ your work to your teacher you can only send it once. If you need to send more than one image or document, you must send them together.
