

Sending a Message

If you are having a problem with Schoolwise and you need to contact your teacher or Mr Martin, you can message someone from your landing page.

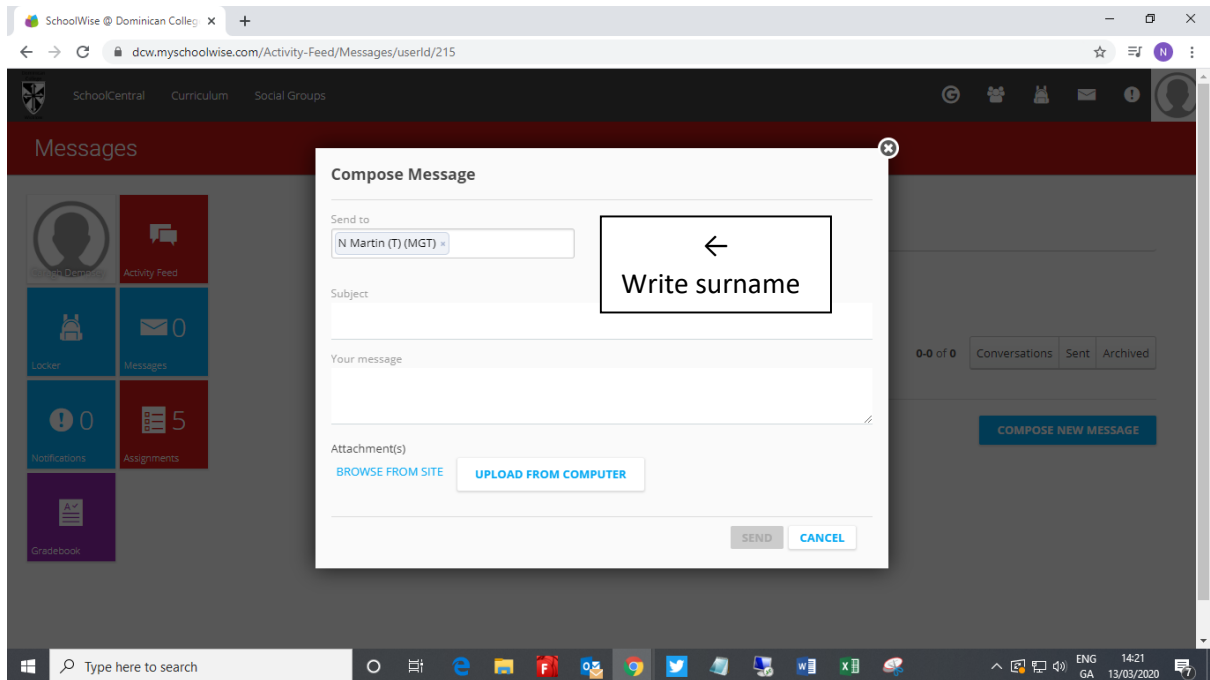

On the top right hand of the page there is an envelope icon. Click on that and it will bring you to this page.

Click on 'Compose new message'.

This box appears. Type in the surname of the person you want to message and their name comes up.

It is then possible for you to send a message if you are having an issue with any part of Schoolwise.
